Education

University of California San Diego La Jolla, CA
Bachelor of Science in Computer Science *Sept 2022 – June 2026*
- UC Regents Scholar

Experience

CSE Department Research Assistant Sept 2025 - June 2026
University of California San Diego
- Developed 1,000+ lines of TypeScript across 3 unfamiliar software codebases, introducing controlled logic and runtime bugs for debugging research experiments.
- Designed 6 debugging tasks across 3 software projects to evaluate students' use of 2 structured debugging methodologies: hypothesis testing and backward tracing.
- Collected and analyzed performance data from student debugging sessions, evaluating task completion rates, debugging strategies, and error identification patterns across multiple experiments.

Business Intelligence Extern June 2024 - Aug 2024
Kern Health Systems
- Developed an interactive Power BI dashboard integrating data from 3 sources using SQL Server and Microsoft Excel to support an internal system upgrade project.
- Wrote and optimized 50+ SQL queries in SQL Server Management Studio to extract, transform, organize, and analyze datasets for dashboard development and reporting.
- Collaborated with BI mentors to identify data requirements, understand backend data sources, and refine queries used for internal reporting.

ACM Projects Team Lead Jan 2023 - Mar 2023
University of California San Diego
- Created a visual guide with 250+ lines of code introducing students to the MERN stack and foundational full-stack development concepts.
- Mentored 15 students on personal software projects by providing technical feedback, debugging guidance, and development support.
- Coordinated biweekly project meetings and facilitated Scrum-style check-ins to track student progress and address development challenges.

Projects

Developer Journal | *GitHub, JavaScript, HTML, CSS* Mar 2024 - June 2024
- Collaborated with a development team to build a calendar application featuring interactive widgets and popups designed for developer productivity.
- Implemented frontend functionality using JavaScript, HTML, and CSS and applied automated testing to validate application behavior.
- Led the design team by developing page layouts, branding, and interactive UI components focused on usability and consistency.

ACM - STritons | *MongoDB, Express, React, Node.js, Github* Oct 2023 - Dec 2023
- Developed a full-stack fitness web application using the MERN stack to help UCSD students explore exercises and create personalized workout plans.
- Implemented frontend and backend functionality using React, Node.js, Express, and MongoDB.
- Built continuous delivery workflows for the application's frontend and backend development.

Technical Skills

Technical Languages: Java, Python, SQL, JavaScript, HTML/CSS, TypeScript
Databases: SQL Server, MongoDB
Frameworks and Libraries: React, Node.js, Express, JUnit, NumPy
Tools: Git, GitHub, Azure DevOps, VS Code, Microsoft Power BI, Microsoft Excel, Figma, BusinessObjects

Languages

English - Fluent
Punjabi - Fluent
Hindi - Conversational
